<sup>3</sup> Outside a video call (data through LifeSize Virtual Link)

# Scalable, secure infrastructure solutions to meet your communication needs.

## On-Premises Video Infrastructure

### LifeSize® UVC Platform™

The software-based LifeSize UVC Platform is the simplest, most flexible way to get your video infrastructure up and running. It's everything you need accessible from one common interface—with multiple applications you just turn on.

#### LifeSize® UVC ClearSea™

Bring HD video collaboration to every worker, in every location, on every device to drive increased collaboration and maximize productivity.

#### LifeSize® UVC Multipoint™

Designed for ultimate flexibility and scale, this software-based bridge enables standards-based multiparty calling for on-demand or scheduled video meetings using room systems, desktops and mobile devices, or via Microsoft® Lync®.

#### LifeSize® UVC Video Center™

The world's most powerful one-button HD streaming, recording and auto-publishing solution ensures that live and on-demand videos are easily accessible from any location or device, including smartphones and tablets.

#### LifeSize® UVC Transit™

A complete firewall and NAT solution that enables secure Full HD (1080p30) video calls within and across networks of any size or complexity.

#### LifeSize® UVC Access™

This standards-based gatekeeper provides intelligent routing and call control of H.323-based video communications networks.

#### LifeSize® UVC Video Engine™ for Microsoft® Lync™

This Lync RTVideo transcoding solution works together with LifeSize 220 Series, LifeSize® Unity™ Series and LifeSize Passport room-based video systems to deliver the highest quality, most flexible and most cost-effective solution for continuous-presence HD video calls with Microsoft Lync.

#### LifeSize® UVC Manager™

Reduce the IT workload by simplifying video network management. IT administrators can efficiently monitor video networks, schedule calls and upgrade hundreds of devices from a single intuitive interface on the LifeSize UVC Platform.

### LifeSize® Bridge™

Highest Quality Multiparty Video Conferencing

LifeSize Bridge is a hardware-based multiparty calling solution for on-demand and scheduled video meetings. This powerful, purpose-built MCU delivers the industry's most reliable HD viewing experience at an unrivaled price/performance.

### LifeSize® Control™

Video Systems Management Software

Manage your video communications networks—centrally, reliably. LifeSize Control provides secure, real-time management and workflow, web-based scheduling, on-demand reporting and centralized software upgrades and provisioning. LifeSize Control is open and standards-based to manage heterogeneous video networks.

### LifeSize® Networker™

ISDN Gateway

The all-in-one gateway, LifeSize Networker, provides complete, cost-effective connectivity for IP to ISDN networks, serial or PRI interface. LifeSize

Networker supports up to 8 sites over 1 PRI or 4 BRI.

### Virtualization Support

Microsoft®  
Hyper-V®

The LifeSize UVC Platform is available as virtual machine software or hardware.

## Hosted Infrastructure

LifeSize®

Connections™

HD Video Collaboration  
in the Cloud

A cloud-based business-class HD video collaboration platform that delivers:

- › Seamless HD calling from any PC, Mac or LifeSize endpoint
- › 9-way HD video/voice encrypted calling with data sharing (dual stream)
- › Auto-configuration of video systems; zero configuration for Mac or PC
- › Subscription-based, no upfront capital investment
- › Simple deployment without IT expertise
- › NAT/firewall traversal, bridging, global directory and management
- › Guest invitation capability, up to two guests per call
